

Motorised Curtain Track Systems

Excell Decor is proud to announce the release of our new range of Raex motorised curtain tracks at prices never seen before in the market. Raex motors are leading the way in modern technology.

Features:

- One of the quietest systems on the market
- Innovative clutch system that allows you to start the motor by simply moving the curtain by hand.
- The curtain can be manually operated during a power failure due to the innovative clutch system.
- Opening and closing limits automatically set in the motor's memory after the first operation.
- Hand held or wall mounted transmitters, or control from home automation system.
- Motor has a built in radio receiver.

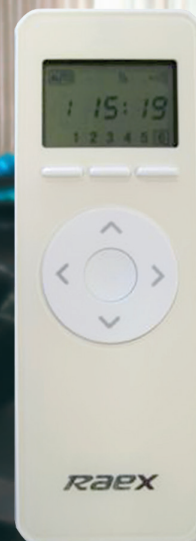

Please contact our offices for further features on our range.
